Professional EXPERIENCE

Genesys Telecommunications Laboratories, Saint-Petersburg, RF Staff Software Engineer March 2016 to present

• Architecture and development of server-side components for Genesys Web Engagement project. (JAX-RS Jersey, Spring, Maven, Docker, Mercurial, Jenkins)

Speech Technology Center, Saint-Petersburg, RF

Senior Software Developer

July 2013 to February 2016

• Architecture and development of mutli-platform highload system for speech recognition, biometrics, sound processing and tracking. (SOA, Spring, .NET, JNI, JMX, ActiveMQ, Maven, PostgreSQL, Riak, Tomcat, Mercurial, Subversion, TeamCity)

GGA Software, Saint-Petersburg, RF

Software Developer

February 2012 to July 2013

- Web-development and PDF parser for mobile HTML-representation of PDF for Bibliorossica. (Java, Spring, ImageIO, C++, PDF parsing, JavaScript, iQuery, Git)
- Web-development I'mScientist (Ruby on Rails, PostgreSQL, MongoDB, Solr, JavaScript, jQuery, Git)

Corning Inc., Saint-Petersburg, RF

Engineer

September 2010 to January 2012

• CFD solvers for chemically-reacting gas flow (C++, OpenFOAM)

- Professional Skills Programming Languages: Java, C#, Ruby, JavaScript, C++
 - Frameworks, libraries and tools: Spring, ActiveMQ, JMX, Batis, Maven, JUnit, Ruby on Rails, TeamCity, Jenkins
 - RDBMS: PostgreSQL, MySQL
 - NoSQL: Riak, Cassandra, Solr
 - IDE: Intellij IDEA, AppCode, Vim, Sublime Text
 - VCS: Git, Mercurial, Subversion
 - OS: MacOS X, Windows, Linux RedHat (CentOS), Ubuntu

EDUCATION

Saint-Petersburg State Polytechnical University, Saint-Petersburg, RF

M.S., Applied Mathematics and Physics, July 2012

- Thesis Topic: Numerical simulation of an air flow inside a cyclone filter and implementation of a Shur-Spalart curvature-correction term for $k-\omega$ SST turbulence model
- Area of Study: Computational Fluid Dynamics, Aerodynamics

B.S., Applied Mathematics and Physics, July 2010

- Thesis Topic: Numerical simulation of supersonic flows
- Area of Study: Computational Fluid Dynamics, Aerodynamics
